

Who would think a Fire Hydrant could get you into a heap of trouble?

Most Property Managers are not aware the City of Austin has been aggressively enforcing Ordinances Requiring Owners of Private Fire Hydrants to have their Fire Hydrants Tested & Certified Annually. If you have a Fire Hydrant on your property, It is probably a Private Fire Hydrant. The sanctions for non-compliance may include hefty fines and in some cases criminal charges.

Why is it a Good Idea to have your Fire Hydrant Tested & Certified Annually?

Apartments Have Burned Down because of non-operable Fire Hydrants.
(some estimates indicate as many as 40% of Fire Hydrants are not functional)

Fire Fighters have been killed or seriously injured by malfunctioning Fire Hydrants.

The Information we provide, tells Fire Fighters how much water they have available to fight your fire.

Annual Certification is Required by Law.

If not flushed, the Water in Fire Hydrants tends to Stagnate, resulting in unpleasant taste & odor.

Your Insurer often uses information we provide in establishing your premium.

Hydrant Valves tend to seize up, if not operated regularly. This can lead to costly future repairs.
