January 10, 2001

Dear Sir or Madam:

HHCC, Inc. has been providing excellent service and producing superior results for The Westgate Building, since 1999. During this time, HHCC has performed numerous jobs, with contracts totaling approximately 1.5 million dollars in value.

Most notable of these contracts, already completed was the Domestic Water System Replacement and Corridor Renovation. This was an arduous and invasive task, affecting every one of the 130 building owners and tenants. The work was performed with attention to quality and sensitivity to disrupting the schedules of our residents. The work was executed smoothly, with few problems, which is highly unusual for a project of such magnitude and complexity.

The employees of HHCC always conduct themselves professionally and I will gladly recommend HHCC, Inc. for any construction and plumbing project.

Sincerely,

Dorothy Evans
General Manager
Westgate Condo Association
